WORKING PAPER

Project:
Viewer: 095
Date: 17 APR 89
Session: 02

SUMMARY OF INFORMATION

Target is in the same area as described in previous session, travelling a circuit which encompasses around 100 miles. This is an area enclosed by Ciudad Victoria, Monterey, Durango and Torreon, Mexico. He sleeps on the outskirts of a small town sketched on page 4. The actual town consists of no more than 10 buildings sitting directly on a narrow 2 lane road. His building is a few miles down from the town on the same road. The building he lives in is sketched on page 3. It is three stories, white with a beige-brown roof. There are no doors on the side that faces the road and the stairs are external to the building on the side nearest town. The target lives in the back corner closest the stairs. The building is old, grimy and dusty. The plaster on the outside is cracked and badly flaking. The rooms are small. The structure is reminiscent (AOL/S) of a seedy flop-house.

The target's current name sounds like (Stage 7):

First name: KUH RAH I "SS or TH" TUH UH NN

Last name: MM "ER or UR" EEE "DUH or TUH"
